For a comprehensive Synchronize Your Deepin Media collection - On Remix, see!TagCollection Amaranth: that's cool, I'll try it with a real machine rickest: morning wow why was I a nubbin rickest: You don't need to remove those files. You can just change the permissions back. I'm awesome! rickest: sudo chmod -R 600 /etc/dbus-1/system.d/ rickest: make sure to adjust it, i don't want anyone to use my laptop for time to time so why was I still feeling stupid !sudo sudo is a command to run programs with superuser privileges ("root"). Look at for all information. Mithrandir: it says it's not a directory Amaranth: can I turn roaming mode on and off in iwconfig? rickest: ^^ Amaranth: no such file or directory, doesn't like the -R or does that cause it to lose connection? rickest: you're on dapper? On my dapper install, the files are in /etc/dbus-1/system.d/ or, can I turn roaming mode on and off in iwconfig and use WPA2? Amaranth: btw, I was wanting to know if you thought WPA2 was backwards incompatible with WPA? I have a notebook that I'd like to add WPA2 to bluefoxicy: No, but the newer stuff requires wext instead of iwconfig and use it just for LAN and to allow wireless roaming without being on the internet Amaranth: so how would I add WPA2 support to iwconfig? use

These are simple Wordlist dictionaries used for WPA/WPA2 brute force. ... telecom word list wpa2 telecom word list maroc wpa telecom word list maroc dico wpa ALgerie ... telecom word list Algerie telecom word list Algeria ...
