The AntiSpyware Doctor provides a real-time protection against  
the latest spyware, viruses, adware, trojans, worms, dialers and  
other potentially harmful PC software. Download the program

---

here: Download Avira Dual Scanner Free Double-click the downloaded file to install the program. When you start Avira, you will be asked to download and install some optional additional tools. Download News Bug Reports Browse through the installation, Windows System, and Network settings, and through the list of installed software and click to delete the found changes. Create Article - 50 word/2000 characters Your Name (optional, shows on byline), Your IP address, url and notes, [url= App for all your Windows Update needs, including Update Scan and all others.[/url] How To: With Windows Update, anytime the Windows update the system, it will also check for other updates, which you have to manually change the setting to automatic and download them. You can change the setting by going to control panel\windows update, then click on automatic update settings in the top right. Those scanning what's being downloaded does cause a fair bit of load on your connection. Doing the update will make the PC a little bit slower for a few hours, but it will save you plenty of hassle. Bonus Tips: You might like to know that using these subversion control tools and the like, you can check what folders are checked in and when and keep track of them yourself, as and when you need them and make sure that they don't get forgotten.

---

You can also change the build number if you want to, with the following: hpi.exe /w /o or hpi.exe /w /o If you want to learn more about the contents of the log file, just open up notepad or wordpad, search the name of the program you are using and copy and paste the output into the document, and you will be able to see some of the information, at the least, that is included with the program. If you really want more information, you will need to get hold of the author of the program and email him/her. If you're looking
