Launch Dropbox from the desktop or start it up from a window by using the Dropbox application shortcut. You can also remove the shortcut if you are not using Dropbox, which is another way to customize your desktop. A program window with your default desktop wallpaper and a spinning Dropbox icon. If you use the Start menu, then the Dropbox icon will be automatically added to the menu. Of course you can make the icon go away by clicking the Dropbox icon, but if you want, you can create a desktop shortcut for Dropbox and drag it to the desktop to automatically make it start up. And now, you can launch Dropbox, change your current desktop wallpaper, or view your recently opened files. If you don't want to see the desktop icon anymore, then you can right-click and choose Unpin Dropbox to remove it. Now that you have everything set up, you just need to click on the little Dropbox icon on the desktop and it will start the app. If you use a dock, then you can drag the icon to the dock to hide it. Also, if you decide to not use Dropbox for some reason, then you can remove the shortcut from the menu and it will be removed from the desktop as well. Dropbox makes it easy to use multiple computers and devices with a safe, private folder for all your files. This free tool is easier than ever to use. Works with Dropbox, Google Drive, OneDrive, SugarSync, and Amazon Drive. Features: This desktop application provides a launch pad for all the files and folders that you use on a daily basis. It is designed to save you time by accessing your files fast and easy. To do this, it can act as a shortcut that you can drag and drop to a location on the desktop. The main window shows your default desktop wallpaper and the Dropbox icon, so you can be up and running with your files in no time. To add more files and folders, just click the "+" icon in the toolbar. Dropbox can be added to the Start menu and its shortcut will be added to your desktop. If you do not want it to be in the Start menu, you can remove it. Just right-click on the drop-down menu icon and choose Unpin Dropbox. This will make the Dropbox icon disappear from the Start menu and it will also remove the shortcut from the desktop. In the Preferences window, you can specify the icon that should appear on the desktop. You can also change the order of items in the menu, so you can access the Dropbox app first. You can also view your recently opened files and folders. If you are using Dropbox, then the app enables you to change the current wallpaper and if you open a file or folder, you can view it. If you prefer to not use the app at all, you can uncheck the box next to it to
